**General Announcement 2017_05 –
Re: The Republic of Fiji Offshore Vehicle Inspection AGE LIMIT**

Dear Stakeholder,

Thank you for your continued support of the Fiji used vehicle pathway. JEVIC is working hard with all stakeholders to ensure the continued trade and smooth process.

Pursuant to the import requirements of Fiji, JEVIC would like to remind Exporters and all stakeholders that as the end of the year approaches to be aware of the change of year of manufacture accepted into Fiji on arrival.

It is recommended that inspections for the following vehicle categories are completed by the 1st of December 2017.

- Year of Manufacture (YOM) is **2012** or older for **diesel and unleaded fuel vehicles**
- Year of Manufacture (YOM) is **2009** or older for **LPG, CNG, solar vehicles, electric vehicles and hybrid vehicles**

This is to allow sufficient shipping time to ensure subject vehicles arrive in Fiji prior to the end of this year.

From the 2nd of December 2017 for any vehicles falling into the YOM categories mentioned above, at the time of booking, clients will need to complete the attached declaration form.

Your assistance is appreciated in ensuring compliance to the Fijian regulations.

Sincere regards,

JEVIC
